

Emergency treatment audit form

Please complete this form and add it to your **appraisal and revalidation portfolio**.

Title of emergency event and date

Seizures (child)

Date of emergency event meeting and date report compiled

*09.03.2004
10.03.2004*

Why is this case significant to you?

Highlights how unprepared all in practice are for such emergencies.

What happened?

Mother brought child with fever. Whilst in consulting room started to fit. Treatment (i.e. rectal diazepam) given but delay huge.

Why did it happen?

*Unfamiliarity of particular GP with the system/stock of emergency drugs.
Emergency situations in the practice uncommon.*

What have you learned?

All of us must check/familiarize ourselves with equipment and be up-to-date with emergency medicine of common problems.

What have you changed?

*Have re-done list of emergency drugs etc. and now circulated to all staff.
Resuscitation training with the practice and one doctor attending emergency medicine for primary care course.*
